

TANKS

Fil-Trek

Vertical and Horizontal Configurations

SIZING

Fil-Trek manufactures tanks up to 84" in diameter.

ORIENTATION OPTIONS

Design and build tanks to meet both vertical and horizontal configurations.

CODE STAMP

ASME Code and non-ASME design available.

MATERIAL SELECTION

Available in a variety of materials of construction including carbon steel, SS304, SS316 and duplex SS (other exotic metals and materials are also available).

CUSTOMIZATION

Fil-Trek can build tanks to meet a variety of custom specifications including manways, internals, high pressure, custom nozzle sizing and more.
